

**MARCH 3-5, 2023**

Starts Friday 4:30 pm dinner, March 3rd through Sunday lunch, March 5, 2023

**MENTAL HEALTH PROFESSIONALS INTENSIVE TRAINING**  
*"Thomistic Psychology and the Liber Christo Method"*

**KEYNOTE SPEAKER: FR. CHAD RIPPERGER, PhD**

This Training will be held at:

***Our Lady of Hope Catholic Center in Chatawa, Mississippi***

Class size will be limited.

Psychological help is often needed for those who seek assistance for spiritual affliction. Mental health professionals with an understanding of Thomistic psychology and the Liber Christo method are able to offer an approach that is in conformity with the Magisterium of the Church. This training is based on the wisdom of St. Thomas Aquinas and developed through the work of Fr. Chad Ripperger, and it provides an accurate understanding of the design of man's nature which is only fully known through philosophical and theological considerations. This program provides an overview of man's faculties and acts with regard to the nature of the mind and soul of man. Mental health professionals will find that these logical insights into the nature and faculties of man establish a clear and effective framework for those seeking help. The knowledge gained will significantly benefit attendees, whether applied within a private counseling practice, the liberation ministry or personally.

**This mental health training provides an overview of:**

- o Thomistic psychology as a scientific perspective for mental health and illness
- o The operations of man's faculties and acts with regard to the nature of the mind and soul
- o How the operations of the faculties cause mental health or illness and how the disorders can be remedied
- o Distinctions between signs and symptoms that are psychological in nature and those that are spiritual/diabolic in nature
- o Counseling methods that lead clients to mental health and interior order through self-knowledge, pursuit of virtue, natural law right order, redemptive suffering and a disciplined, sacramental life
- o Counseling approaches commonly employed by priests and therapists to demonstrate how they can work together collaboratively

**Criteria for attending:**

The program is designed for licensed mental health professionals and trained exorcist priests. Other licensed health care professionals, such as physicians, nurse practitioners or pharmacists may benefit. Professionals who would like to work closely with or on Liber Christo teams should strongly consider the Liber Christo Four Phase Protocol Training which immediately follows the mental health training.

**This year's presenters, who are Liber Christo team members or consultants to the organizations include:**
