Who Is Monte Christo, LLC?

As depicted in the image above, Monte Christo, LLC is the vehicle which transports a variety of specialized spiritual warfare products. There is more than one product behind the tailgate. Monte Christo, LLC is a corporation established to support spiritual warfare training for Exorcist and Parish Priests, Laity Teams, and individuals. The medium for this training is parish missions, training retreats for Priests and Laity, online book studies and other means. The aim is to support priests and laity that are executing this work throughout the country by organizing and administrating the commercial aspect of the effort. All of the training workshops, retreats, and mission talks are based on the Liber Christo Model of Liberation through reconciliation with God The Father.

The Monte Christo Community is a group of individuals that have the common goal of promoting spiritual warfare in an authentically Catholic model. This is done through sponsoring and participating in events promoting this goal.

Snapshot of the Month

Jeanne Marie Ganucheau, MSW, LCSW

Jeanne-Marie is a clinical social worker whose unique application of the Thomistic philosophical approach has helped many struggling with emotional and spiritual issues. She credits this methodology to Dr. Patrick DiVietri, a former adjunct professor at Christendom College and Mount St. Mary's Seminary, who distilled the works of Fr. Chad Ripberger into a reasonable and useful approach for counseling.

This Thomistic psychological method is presently taught to mental health professionals who are trained in the Liber Christo Method. Professionals applying this Thomistic understanding of the human person, which is based on the wisdom and Magisterium of the Church, have seen exceptional results in their counseling efforts. Grateful to be able to share this treasured information with others, Jeanne-Marie trains mental health professionals as well as case managers in the Liber Christo method. She also assists the Societas Matris Dolorisissimae (SMD) with cases.

Jeanne-Marie incorporates 30 plus years of direct counseling experiences with knowledge from her work as a medical social worker and case manager, strategic planner and trainer. These skills, along with a passion for theology and philosophy, provide a distinct foundation in her work as a therapist and case manager.

Jeanne-Marie initially worked in the health care industry as a clinical social worker, case manager, supervisor and educator in acute care, sub-acute care, physical rehabilitation and home health settings. After 15 plus years in health care, she transitioned into the health and life insurance industry, where she coordinated training and employee development programs. Post Hurricane Katrina, she worked for the U.S. Senate as a

liaison for community development where she was able to apply her clinical experience and administrative/planning skills to assist communities throughout Louisiana.

Since 2013, she has worked on a contract, project-specific basis for several entities, primarily nonprofit organizations. She has also enjoyed providing direct counseling/clinical social work services using a Thomistic psychological method throughout the past several years, offering perspectives that direct people to God as the source of happiness and fulfillment.

Please see below a "Sneak Preview" of a Course to be offered by Jeanne-Marie this fall.

A Sneak Preview of Upcoming Course!

Introduction to the Science of Mental Health

An Overview of Thomistic Psychology

In response to requests for educational programs that teach Thomistic Psychology, we are happy to let you know that a course on the core components of a Thomistic philosophical, psychological approach will be available by the end of September. One of our Liber Christo team members, Jeanne-Marie Ganucheau, MSW, LCSW, will provide instruction based on Fr. Chad Ripperger's seminal work, *Introduction to the Science of Mental Health*.

While the course will address mental health professionals primarily, other helping professionals (clergy, coaches, teachers) or interested laity will also benefit. Participants will learn how God designed man to function, the purpose of the various human faculties and the how the faculties affect one another, causes of mental illness and health, how to help others pursue happiness and interior peace as well as the application of these concepts in the counseling process. In this initial course, Jeanne-Marie will provide an overview of the value of a Thomistic perspective in our modern world and highlight its relevance to the mental health and illness issues that we experience in our effort to help others.

This will be a student self-paced online offering.
Details to come in September.
