Who Is Monte Christo, LLC?

As depicted in the image above, Monte Christo, LLC is the vehicle which transports a variety of specialized spiritual warfare products. There is more than one product behind the tailgate.

Monte Christo, LLC is a corporation established to support spiritual warfare training for Exorcist and Parish Priests, Laity Teams, and individuals. The medium for this training is parish missions, training retreats for Priests and Laity, online book studies and other means. The aim is to support priests and laity that are executing this work throughout the country by organizing and administrating the commercial aspect of the effort. All of the training workshops, retreats, and mission talks are based on the Liber Christo Model of Liberation through reconciliation with God The Father.

The Monte Christo Community is a group of individuals that have the common goal of promoting spiritual warfare in an authentically Catholic model. This is done through sponsoring and participating in events promoting this goal.

Snapshot of the Month Kyle Clement

We would like to introduce an "old" face who now has a new position. Mr. Kyle Clement has been named the Director of Formation and Training for the SMD. Mr. Clement is not a stranger to the SMD or the Liber Christo Method. He, alongside Fr. Ripperger, developed this methodology utilizing their combined 40 plus years of experience in spiritual warfare. This position has Mr. Clement directing all training activities for the Liber Christo Method at the laity, Priest, and diocesan level. Mr. Clement will utilize Monte Christo to organize and facilitate these trainings with the main training opportunity being detailed below next February/March in Chatawa, MS.

If you are interested in any of these opportunities, please contact info@montechristo.net to request information.

A Sneak Preview of Upcoming Course!

Introduction to the Science of Mental Health

An Overview of Thomistic Psychology

In response to requests for educational programs that teach Thomistic Psychology, we are happy to let you know that a course on the core components of a Thomistic philosophical, psychological approach will be available by the end of September. One of our Liber Christo team members, Jeanne-Marie Ganucheau, MSW, LCSW, will provide instruction based on Fr. Chad Ripperger's seminal work, *Introduction to the Science of Mental Health*.

While the course will address mental health professionals primarily, other helping professionals (clergy,

coaches, teachers) or interested laity will also benefit. Participants will learn how God designed man to function, the purpose of the various human faculties and the how the faculties affect one another, causes of mental illness and health, how to help others pursue happiness and interior peace as well as the application of these concepts in the counseling process. In this initial course, Jeanne-Marie will provide an overview of the value of a Thomistic perspective in our modern world and highlight its relevance to the mental health and illness issues that we experience in our effort to help others.

This will be a student self-paced online offering.
Details to come to be forthcoming!
